TOPIC Pre-Conference Course
Tuesday, July 14, 2015

The Society of Trauma Nurse's TOPIC course is taught to all members of the trauma system team who participate in the ongoing assessment, evaluation, and improvement of trauma care. The Society of Trauma Nurses has developed the "Trauma Outcomes and Performance Improvement Course" in response to the need for education and better understanding of the Performance Improvement process in trauma care. TOPIC focuses on the ongoing assessment of the continuum of trauma care with a structured review of process and discussions of strategies to monitor trauma patient outcomes.

The TOPIC course is taught in a one-day interactive Modular Format, customized to best meet the needs of the individual trauma care provider participants who have varying levels of experience with trauma performance improvement. The course offers practical application for all levels of trauma centers, from entry level to the mature phase of program development. The Modules are taught with a focus on didactic, operational definitions, sample tools, case study examples and take home points.

The Utah Bureau of Emergency Services; Trauma System has contracted with The Society of Trauma Nurses to provide TOPIC as a pre-conference course at the Western Pediatric Trauma Conference on Tuesday, July 14, 2015.
